Table, and is as follows, My Lords and Gentlemen,

My Lords and Gorelemen,

I S Majefly has commanded me to acquaint you, that it is to His great Satisfaction, your prefeat Meeting in Parliament is in a Time of publick Peace and Tranquility, and after the entire Suppression of the late unnatural Rebellion, which your seasonable Loyalty and Zeal, not only kept out of this Kingdom, but contributed likewise to extinguish in Great-Britain. As the Miseries this Nation hath here-tofore experienced from a Popish Government, could not but animate you to diffinguish your selves on that Occasion, you may be afford that his Majesty will make suitable Returns to such Instances of your Duty and Affection, by supporting and maintaining you ty and Affection, by supporting and maintaining you in the full and free Enjoyment of all your Religious and Civil Rights.

to defeat it.

You must be fensible, that the Charge occasion'd by those Disturbances has considerably augmented the Nathose Disturbances has considerably augmented the stational Debt, which has been chiefly incurred fince that time; an exact and just Account of which, and of what it consists, shall be laid before you. And I am to acquaint you, that His Majesty, to prevent it to of what it confifts, shall be laid before you. And I am to acquaint you, that His Majesty, to prevent its Increase, has given Orders for such Reductions in the Military Lift, as He thinks may be consistent with your present Security, and has put the new Establishment into such a Form, as will shew you the real Number of estective Men you have to depend on. His Majesty has likewise thought sit to lessen the Civil List on the Head of Pensions, and has directed such Rules to be observed, as may annually abate the Expence upon them: But as the yearly Charge of the Establishment exceeds the annual Produce of the Revenue, His Majesty doubts not to have such Aids and Supplies granted him, as will support the Establishment and discharge the Debt, and that you will agree on the Means of doing it with the same Unanimity, as you did when it was necessary to contrast it.

as you did when it was necessary to contract it.

My Lords and Gentlemen,

I think my felf obliged to take Notice to you, I think my felf obliged to take Notice to you, of His Majefty's great Goodness, in having lately passed an Act in the Parliament of Great Britain, for the Encouragement of the Linnen Manusacture in this Kingdom. And am commanded by His Majesty to recommend to you, in a very particular Manner, Unanimity and Agreement amongst your selves in all your Proceedings, which His Majesty conceives must be of the utmost Importance to His Service, and your own Security, in a Country where there is so great a Disproportion between the Friends and Enemies of our Religion. Laws and Liberties.

I cannot conclude, without expressing the Satisfassion I have, in His Majesty's sending me again to a Kingdom, where I had formerly the Honour to serve the late King William of Glorious Memory, as one of the Lords Justices, and where I then received so many Instances of your good Will rowards me. I shall endeavour still to preserve your Affections, by representing your Actions in a just and true Light to His Majesty, and by doing every thing in my Power, that may conduce to the publick Good.

Hamburgh, Aug. 27. 'The Duke of Mecklemburg continues to exact Contributions upon his Subjects for the Maintainance of 10000 Men, and is buify in recruiting and filling up all his Regiments. But there is room to believe, that the glorious Success of his Imperial Majesty's Arms in Hungary, may make that Duke take other Measures, who has hitherto paid but little Respect to the Imperial Authority and the just Decrees issued from the Aulick Council of Vienna. General Ranck being setting out for Cassel. The Ships laden with Iron are stop'd at Stockholm, for fear of falling into the Hands of the Russians; but they having now intirely quitted the Russians; but they having now intirely quitted the Hland of Gothland, the Proprietors of those Ships hope to have Leave for them to fail. Some Forces bope to have Leave for them to fail. Some Forces are commanded to go and take Possession again of that Island. We hear from Petersburg, that, by Order of the Senate there, the Governour of Archangel, named Ladicinsky, with all his Domesticks and Officers, are seiz'd. The Disturbances in the Czar's Dominions encrease so much, that the Return of that Monarch seems to be very necessary for redressing Affairs.

Hagus, Sept. 7. Here are some who assure, that the 8000 Men on board the Spenish Squadron, are to land upon the Coast of Tuscany, to secure the Succession of that Dutchy to the Crown of Spain when the Great Duke dies. And the Speculative at Parishave already made a Partition, and say, that by the private League, his Sicilian Majesty is to give up Sicily to Philip V. and assist him in recovering Naples;

We are assured, that the Minister the Czar sends

to Vienna, goes to reclaim amicably the Czarowitz, who is faid to lie hid in Tyroi.

The Ambaffadour of France has notified to the Lords of the Regency, as also to many Foreign Mi-niflers, that the Dake Regent has fent pressing Orders to the Minister of France at the Court of Ma-drid, to disswade in lively Terms, his Catholick Majesty from the Design he has form d against Ita-Majesty from the Design he has form'd against Italy, and to represent to him the dangerous Consequences of such an Enterprize, which can have no other End than troubling a new the Quiet of all Europe. The States General have disparch'd the like Orders and Instructions to Baron Riperda their Ambistadour at the said Court. And altho' the Spanish Minister says nothing in publick of the Design of his Court, he is often in Conference with M. the Couns fellour Pensionary, which 'its said is to induce him to write to his Court, how much this State, and the other Potentates; who are interested in the Preservation of the Peace of Italy and therein all Europe, will be obliged to oppose this unexpected Enterprize of the Court of Madrid, which is not so easy to accomplish as 'tis perhaps imagined. plish as 'tis perhaps imagined

The late Storm on the 1st Instant, was more vio-lent than has been known here: The greatest part of the Houses were damag'd, as were most of Trees upon the Plain; above 2000 large Trees have been torn up by the Routs, and many Ships were

cast away upon the Maes.
